

60" Chair Divider

Model 8428 — Stationary Chair
Divider with Base Plates

Model 8429 — Portable Chair
Divider with Casters

This sleek Chair Divider offers a convenient way to separate space between chairs in your office or waiting room. Creating a barrier between people, this Divider may help prevent the spread of infectious pathogens, limit physical contact and foster a sense of comfort and safety during patient visits.

Available in stationary or portable models.

ALL UMF MEDICAL PRODUCTS ARE MADE IN THE USA
