

## 30" Sneeze Guard

### Model 8430

This convenient Sneeze Guard offers a way to separate space between people in your office, registration area or waiting room. Lightweight and easy to move, this tabletop Sneeze Guard may be easily repositioned to meet the provider's needs. Because it creates a barrier between people, it may help prevent the spread of infectious pathogens, limit physical contact and foster a sense of comfort and safety during patient visits.

**ALL UMF MEDICAL PRODUCTS ARE MADE IN THE USA**
