

60" Gang Seating Chair Divider

Model 8434 — Stationary Gang Seating Chair Divider with Base Plates

This sleek Chair Divider offers a convenient way to separate space between gang seating chairs in your office or waiting room. Creating a barrier between people, this Divider may help prevent the spread of infectious pathogens, limit physical contact and foster a sense of comfort and safety during patient visits. Available in stationary or portable models.

ALL UMF MEDICAL PRODUCTS ARE MADE IN THE USA
