# Healthcare is changing

## And traditional exam rooms are changing with it

Traditional box exam tables can be difficult to access, posing safety risks for patients and clinicians.

And budget constraints often make it difficult to place ADA-accessible power exam chairs in every exam room.

But not anymore!

With the ACCESSIBILITY of a power chair and the AFFORDABILITY of a box table, the FusionONE Power Exam table offers the features healthcare providers need most.

This hi-lo power exam table enables simple ADA access and ease of examination for patients of all ages and abilities.

The FusionONE Series of exam tables are available with a manual or power backrest and with our OneTouch Wheelbase™ System. With a variety of models and accessories, the FusionONE Series allows for easy healthcare facility standardization.

# The OneTouch WheelBase® System from UMF Medical

The OneTouch WheelBase® System from UMF Medical makes moving our ProGlide™ Series of products as easy as pushing a pedal. The integrated central-locking wheelbase with an intuitive foot pedal enables staff to move the equipment easily and quickly for cleaning, then lock it solidly into place for exams.
